

Sanjivani International School, Kharghar

(Academic Session - 2018 - 19)

Circular

Dear Parents,

Over recent years our school site — classrooms and playground facilities — have benefited greatly as a result of the generous support of our parents. We are currently about to embark on the next stage of our school development, which is the construction of a new building comprising additional classrooms and other facilities. Our school is greatly oversubscribed and the new building will provide additional capacity for the school to accept another form of entry which means more places for children. However, the school, the Local Authority and Constructors have explored all options to minimize disruption throughout the process and believe this will help ensure that we start life in our new building in a positive, orderly and safe way.

We assure that this will not disturb the school academic calendar and the learning process will continue as scheduled.

Your co-operation is solicited.
